

Rebecca Wilson

Celebrant

How you can prepare

Order of Service

I will help you understand the order of service, with placement of music, photos and other decisions you made with your Funeral Arranger.

Speakers and Tributes

It's great to have these conversations before we speak, with others in your family.

If we know who is speaking, we can then place those speakers into order.

Please know as your celebrant I can deliver tributes on behalf of others.

Poems and Readings

Often a reading/poem/prayer can be included within the service, I can make some suggestions, or perhaps you have something special you would like included. I have a booklet available for your consideration.

What's important to you as a family?

Most importantly, I will listen to your thoughts, and be guided by what you as a family would like. It's important to me that I deliver a service reflective of your loved one, and your families wishes.
